## WORK EXPERIENCE

SIDO

Los Angeles, US (remote) | Oct 2023 – Feb 2025

1 year 4 months

- Research & Development Lead
  - Directed data science research in gaming, optimizing experimentation (GCP, dlt, dbt, BigQuery, Deepnote), facilitating academic relations, resulting in multiple consulting partnerships and a statistics publication
  - Led strategy and development of a subscription-based game analytics product, aligning customers, design, and engineering while integrating our research work to experiment with new features and drive innovation
  - Pioneered voice-communication analytics in esports by deploying a Discord audio recording bot and implementing a signal extraction pipeline with Speech-to-Text models got invited by Routledge to author a book on this topic

Fnatic

London, UK | June 2021 - Sept 2023

### Senior Engineer (Research & Analytics)

1 year 3 months

- Managed an internal game analytics product (Clickhouse, MindsDB, Retool), overseeing technical and design requirements while continuously refining feature prioritization to maximize value based on user feedback
- Integrated user analytics into our mobile app development (PostHog), enabling adaption & retention tracking
- Piloted an EEG biomarker tracking project with a gaming academy won the league with a record score

**Analytics Engineer** 

1 year

- Implemented a new data stack (AWS, Kubernetes, Airflow, dbt, Airbyte, Postgres), transforming data operations
- Launched a self-serve BI platform (Metabase), setting up user-friendly data models and no-code tooling as well as leading onboarding, resulting in a significant increase in internal reporting and BI usage across all business units
- Managed the end-to-end development, launch, and adaption of an inventory management app with ML-driven forecasts (Databricks, FBProphet, MLflow), leading to reduction of excess stock and improved cash flow

Mews

London, UK | Sept 2019 - June 2021

#### Junior Data Scientist

1 year

• Implemented in-app behavior data processing & analytics, collaborating cross-functionally to streamline onboarding and support with advanced reporting, and drive upselling through user insights (Databricks, PowerBI, Salesforce)

Research Analyst 9 months

- Built a global hospitality database (Azure, Python, MSSQL) to inform go-to-market strategy and sales KPIs
- Developed and deployed a churn prediction ML model (Databricks) to identify at-risk customers during COVID-19

Wild.AI

London, UK | Jan 2019 - July 2019

## Research & Development Specialist

6 months

- · Reviewed scientific literature on female physiology to inform product development and engagement strategy
- Designed UX prototypes and educational content with coaches and female health experts to improve accessibility

## ACADEMIC CONTRIBUTIONS

Editor | Emerald Publishing - Team Performance Management Special Issue

To be published in 2025

**Speaker** | Econometric Case Study of the Evolution of the NA LCS

Esports Research Network Conference 2024

Author | Routledge Handbook of Esports - Chapters 2.7 & 3.4

Published in 2024

Panel Member | Data Driven Performance

Esports Coaching and Performance Summit 2023

 ${\bf Speaker} \mid \textit{Esports Research Methodology}$ 

Esports Science Symposium 2023

Panel Member | Sustainable Business in Esports

Esports Research Network Conference 2022

## **EDUCATION**

University College London (Institute of Education)

London, UK | Sept 2017 - Aug 2018

Postgraduate Certificate in Education, Physics with Mathematics

11 months

University College London (Institute of Child Health)

London, UK | Sept 2013 - Sept 2017

MSci in Physics, Minor in Neuroscience

4 years
